LANDSCAPES LTD. GREENTREE

Since 1992 Greentree Landscapes has been building a reputation for high quality, award winning work in Calgary's residential landscaping industry. When you choose Greentree Landscapes you can be confident that your project will always reflect our high standards of knowledge, craftsmanship and customer service.

We are always striving to improve our products and services through on-going professional development. To this end, our management and staff regularly attend workshops, seminars and other training sessions on new products, techniques and trends.

In many ways, Greentree Landscapes is still an owner/operator sized company at heart. The company is owned by Tarance Zak, who has worked in the landscaping industry since 1986, when he graduated as a Landscape Architecture Technologist. It is Tarance's commitment to exceptional customer service and superior quality, that drives the success of the business and which keeps our standards unfailingly high.
